#### *Electronic Records*

[815 ILCS 333/7](#)  
[815 ILCS 333/12](#)

Records shall not be denied legal effect or validity solely because they are in electronic form. An electronic record satisfies a rule of law requiring information to be “in writing” or “written.”

This is a law of general applicability to all entities or individuals keeping electronic records.

If a law requires that a record be retained, the requirement is satisfied by retaining an electronic record of the information in the record which (1) accurately reflects the information set forth in the record after it was first generated in its final form as an electronic record or otherwise; and (2) remains accessible for later reference.

#### *Regional Offices of Education and Service Centers*

[105 ILCS 5/2-3.62](#);  
[23 Ill. Adm. Code 525.10](#)

A regional network of educational service centers shall be established by the State Board of Education to provide new services to schools. Services to be made available by such centers shall include the planning, implementation and evaluation of computer technology education.

The State Board of Education is required to establish such networks, however, each Regional Office of Education, Immediate Service Center, and Chicago School District 299 shall ensure such services are provided.

*FOIA – Online Records*

[5 ILCS 140/8.5](#)

School districts are not required to copy a public record that is published on the district's website. School districts must notify the requester that the public record is available online and direct the requester to the website where the record can be reasonably accessed.

If the requester is unable to reasonably access the online record, the requester may resubmit the request stating the inability to access the record, and the school district shall make the record available for inspection or copying.

This law applies to all school districts maintaining a website.

## I PROGRAMS

### STATUTORY REFERENCE

*Remote Educational Program*

[105 ILCS 5/10-29;](#)  
[23 Ill. Adm. Code 226.360](#)

### THE LAW

School districts may place students into a remote educational program pursuant to an adopted school board policy. A student may participate only after the school district and a person authorized to enroll the student determine that a remote educational program will best serve the student's individual learning needs.

A remote educational program is an educational program delivered to students in the home or other location outside of a school building that aligns to State learning standards, and the program is consistent with those given to students at the same level in the school district. Each student must have a written remote educational plan approved by the school district. The placement of a student in a remote educational program does not relieve the school district of the responsibility for ensuring the student will receive all programming and related services required by the IEP.

This program does not include instruction delivered to students through an "E-Learning Program."

*Driver Education Distance Learning*

[105 ILCS 5/27-24.2](#)

School districts may, on a case-by-case basis, allow a student to take a portion of a driver's education course through a distance learning program. Such decision must be approved by the school's administration, including the driver education teacher and the parent/guardian. The student may not take the entire driver education course through a distance learning program.

The law applies to all school districts.

*Dissection Alternatives Act*

[105 ILCS 112/5](#) et seq.

Given the advancement of technology in school districts, all school districts are encouraged to make available and use alternatives to dissection, when the alternatives are appropriate and can provide an educational experience that is equal or superior to the traditional use of dissection.

The law applies to all school districts.

*Heroin and Opioid Prevention Pilot Program*

[105 ILCS 5/22-81](#)

The State Board of Education and Department of Human Services established a 3-year heroin and opioid drug prevention pilot program that offers educational materials regarding heroin and opioid abuse to all school districts. School districts may be reimbursed (subject to appropriation) by the Department of Human Services for any costs it incurs in connection with participation in the program.

The program must use interactive teaching methods and technology to help students, parents and school staff understand the risk of drug use.

This program applies to school districts voluntarily participating in the prevention program.

*E-Learning Days*

[105 ILCS 5/10-20.56](#)

School districts statewide are authorized to utilize “E-Learning Days” in lieu of emergency days, or because a school was selected to be a polling place, and allows students to engage in career-connected learning outside of the classroom.

The School Code provides that five clock hours of instruction or school work are required for each student participating in an E-learning Day. Exceptions to the five-hour instructional day requirement are for students participating in dual credit, internships, youth apprenticeships, or blended learning programs.

Before the adoption of the E-Learning Program, the school board must hold a public hearing on a school district’s proposal for an e-learning program. Notice must be provided at least 10 days prior to the hearing by (1) publication in a newspaper, (2) written or electronic notice designed to reach parents or guardians of all students in a school district; and (3) written or electronic notice designed to reach any exclusive collective bargaining representatives of school district employees and all those employees not in a collective bargaining unit. The school board’s approval of a school district’s initial e-learning program and renewal of the e-learning program shall be for a term of 3 years.

This law applies to all school districts.

*E-Learning Requirements*

[105 ILCS 5/10-20.56](#)

Proposals for E-Learning programs must contain provisions designed to accomplish:

- (i) ensure and verify at least 5 clock hours of instruction;
- (ii) ensure access from home or another appropriate remote facility for all students participating, including computers, Internet, and other forms of electronic communication
- (iii) ensure that non-electronic materials are made available to students participating in the program who do not have access to required technology, or to participating teachers or students who are prevented from accessing the required technology
- (iv) ensure appropriate learning opportunities for students with special needs
- (v) verify each student's electronic participation
- (vi) address the extent to which student participation is within the student's control as to time, pace, and means of learning
- (vii) provide effective notice to students and their parents or guardians of the use of particular days for e-learning;
- (viii) provide staff and students with adequate training
- (ix) ensure opportunity for collective bargaining negotiations with representatives of the district's employees who would be affected in the event of an E-Learning day;
- (x) review and revise the program to address difficulties confronted; and
- (xi) ensure that protocol regarding general expectations and responsibilities of the program is communicated to teachers, staff, and students at least 30 days prior to utilizing an E-learning day.

E-learning days may be utilized for remote and blended remote learning days.

This law applies to all school districts.

The Student Online Personal Protection Act prohibits “operators” from engaging in targeted advertising, sale, rent, and use of protected information to protect privacy and security of student data. “Operators” have various duties under the act, namely: (i) implement and maintain reasonable security measures to protect covered information from unauthorized access; (ii) delete a student’s covered information if the school requests such deletion (unless a student or his or her parent consents to the maintenance of such covered information; (iii) publicly disclose material information about its collection, use, and disclosure of covered information (e.g., terms of service agreement, privacy policy, or similar document)

The following additional duties are effective July 1, 2021:

(iv) Excepting nonpublic schools, requires any operator who seeks to receive any covered information, enter into a written agreement (whether written, electronic, or “click-wrap”) that a user must agree to terms before using the product or service

(v) in case of a breach, expedient notification to the school; and

(vi) excepting nonpublic schools, providing to the school a list of third parties to whom the operator is disclosing or has disclosed covered information.

This law applies to “operators”, which is defined as:

to the extent that an entity is operating in this capacity, the operator of an Internet website, online service, online application, or mobile application with actual knowledge that the site, service, or application is used primarily for K through 12 school purposes, and was designed and marketed for K through 12 school purposes.

School districts that collect biometric information from students shall adopt policies that require, at a minimum, all of the following:

- (i) Written permission from the individual who has legal custody of the student or from the student if he or she has reached the age of 18.
- (ii) Discontinuation of use of a student's biometric information upon the student's graduation or withdrawal; or upon receipt in writing a request for discontinuation by the individual who has legal custody of the student or from the student if he or she has reached the age of 18.
- (iii) Destruction of a student's biometric information within 30 days after the use of the biometric information is discontinued
- (iv) The use of biometric information solely for identification or fraud prevention
- (v) Prohibition on the sale, lease, or disclosure of biometric information (unless there is consent or disclosure required by court order).
- (vi) Storage, transmittal and protection of biometric information from disclosure.

"Biometric information" means any information that is collected through an identification process for individuals based on their unique behavioral or physiological characteristics, including fingerprint, hand geometry, voice, or facial recognition or iris or retinal scans.

#### *Internet Safety Curriculum*

[105 ILCS 5/27-13.3](#)

School districts must implement an internet safety component in their curricula. It is recommended that the following topics are included: safe and responsible use of social networking websites, chat rooms, electronic mail, bulletin boards, instant messaging, and other means of communication on the Internet; recognizing and reporting online solicitation; recognizing and avoiding unsolicited and deceptive communications online; and recognizing and reporting online harassment and cyber-bullying.

This law applies to all school districts.

#### *Bullying Prevention*

[105 ILCS 5/27-23.7](#)

Each school district must create and maintain a policy on bullying which must be: (i) on file with the State Board of Education, (ii) published on the school district's website, and (iii) included in the student handbook.

This law applies to all school districts.

The School Code provides that no student shall be subjected to bullying via transmission of information from a school computer, a school computer network, or other similar electronic school equipment. "Bullying" includes "cyber-bullying" and means any severe or pervasive physical or verbal act or conduct, including electronic communication, directed toward a student or students that has or can be reasonably predicted to have the effect of placing a student in reasonable fear of harm, causing a substantially detrimental effect on the student's physical or mental health, substantially interfering with the student's academic performance, or substantially interfering with the student's ability to participate in or benefit from the services, activities, or privileges provided by a school.

[47 C.F.R. § 54.501](#)

All schools and libraries receiving discounted Internet access under a particular federal program (“E-rate Program”) must adopt Internet safety policies in accordance with the Children’s Internet Protection Act (CIPA). School and library authorities must certify that they: (1) have complied with requirements of CIPA, (2) are undertaking actions, including any necessary procurement procedures, to comply with the requirements of CIPA; or (3) CIPA does not apply because they are receiving discounts for telecommunications services only. CIPA requires that schools and libraries adopt an internet safety policy, implement technology protection measures (i.e., filtering images and content), and provide reasonable public notice and hold at least one public hearing or meeting to address a proposed technology protection measure and Internet safety policy.

This law applies to any school or eligible school library that receives discounted rates pursuant to the “E-rate Program.”

#### *Reimbursement of Expenses*

[820 ILCS 115/9.5](#)

Employers are required to reimburse employees for all reasonable expenditures or losses required of the employee in the discharge of employment duties, and that inure to the benefit of the employer. This means that expenses for cell phones, laptops, and other personal devices that the employee incurs within the scope of his or her employment, and that directly relate to services for the employer, must be reimbursed unless:

- 1) The employee was not authorized or required to incur the expense
- 2) The loss was due to an employee's own negligence, normal wear, or theft (unless the theft was a result of the employer's negligence)
- 3) If the employee failed to comply with the employer's written expense reimbursement policy.

The written reimbursement policy may provide specifications or guidelines for authorized necessary expenditures, and provide reimbursement in an amount less than 100% of the expense, so long as the employer does not have a policy that provides for no reimbursement or *de minimis* reimbursement.

This law applies to all employers and employees in this State, including employees of school districts.

LEARNING  
**TECHNOLOGY**  
CENTER of ILLINOIS

*The Learning Technology Center supports all K12 districts, schools, and educators in Illinois through technology initiatives, services, and professional learning opportunities. Our work addresses high-need technology and digital learning challenges, and we help schools increase access to and use of technology to improve educational opportunities for students.*
