

LTC Statewide Consortium Endpoint Security & MDR

K-12 Schools are high value targets for cybercriminals, compromising the privacy of thousands every year. Unified endpoint security through the SentinelOne Platform, with access to MDR services, empowers teams to autonomously protect and secure campuses - physical and digital - against the most sophisticated threats. SentinelOne has partnered with LTC to provide Illinois K-12 schools with best of breed EDR and MDR, as well as other security solutions, at a more affordable cost.

SentinelOne Bundle for Illinois K-12:

Singularity Complete

- ✓ EDR with autonomous response actions (Kill, Quarantine, Remediate, Rollback)
- ✓ Firewall Control
- ✓ Device Control (USB/Bluetooth)
- ✓ Remote Shell
- ✓ 14 Day Endpoint Retention
- ✓ Zero Day & emerging threat detection
- NEW ✓ Purple AI Foundations
- ✓ XDR Integration for SIEM

NEW Singularity Vulnerability Mgmt

- ✓ Live Asset Inventory Discovery on Network
- ✓ Device Isolation
- ✓ SI Agent Deployment to unmanaged devices
- ✓ App & OS Vulnerability Management

Support & Training

- ✓ Premium Support: 24x7x365 phone and ticket support
- ✓ Access to webinars self-paced and group training

Vigilance MDR

- ✓ Access to 24x7 SOC at SentinelOne
- ✓ Alert Monitoring, Triaging & Remediation
- ✓ Monthly Reporting & Live Metrics

Implementation & Onboarding

- ✓ White-glove implementation services through CAIU Team

Key Features Of The SentinelOne Platform:

- + **Endpoint Detection & Response (EDR)**
For laptops, on-prem servers, cloud workloads (Windows, MacOS & Linux)
- + **Purple AI**
Gen-AI feature for entire SI platform
- + **Vulnerability Mgmt**
Asset Discovery + Control
Vulnerability Management
- + **24/7 Managed Detection & Response (MDR)**
Monitoring of endpoint alerts with remediation
- + **Other Add-On SKUs**
Mobile, Identity Protection, SIEM, MDR for SIEM, IR, Threat Hunting available

LTC Discounted Pricing:
SentinelOne EDR/XDR,
Vuln Mgmt and MDR Bundle

+ \$26.75 per Workstation License/Year

+ \$39 per Server License/Year

* Pro-rated to existing July 2026 - July 2029 agreement (annual billing)

LTC Statewide Consortium

Other SentinelOne Security Solutions

SentinelOne has also put together statewide pricing for all security solutions available within the SentinelOne platform. This allows schools to put together custom bundles or add solutions at any time during the agreement.

ENDPOINT

Purple AI SOC Analyst

- ✓ Upgrade to Athena AI for automated remediation and additional features

Mobile Threat Defense (MTD)

- ✓ Threat detection & response for iOS and Android devices

Extended Endpoint Retention

- ✓ Extend retention past 14 days to 30, 90, 180, 365 days or more

IDENTITY

Singularity Identity

- ✓ Identity Threat Detection & Response (ITDR) enabled from S1 EDR agent
- ✓ Identity Deception
- ✓ Cached Credential Protection

- ✓ Active Directory attack detection & response for domain controllers and application servers

- ✓ Vulnerability and misconfiguration monitoring of Active Directory and Entra ID

CLOUD

Cloud Workload Security (CWS)

- ✓ Real-time, AI powered threat protection for VMs & containers in public clouds

Cloud Native Application Protection (CNAPP)

- ✓ Autonomous threat monitoring, vulnerability management, analysis and remediation of cloud environments (agentless)

SIEM

AI SIEM

- ✓ 3rd party log ingestion with detection library, Purple AI and Hyperautomation (next-gen SOAR) with over 200+ out-of-the-box workflows and playbooks
- ✓ Per GB with 30, 90, 180 or +365 day retention

SERVICES

WatchTower Threat Hunting

- ✓ Managed threat hunting and response for newly emerging threats

Digital Forensics & Investigation (DFIR)

- ✓ Bucket of hours for IR, forensics and proactive services

Singularity MDR (MXDR)

- ✓ MDR for 3rd party log sources in AI SIEM, Identity + Managed Threat Hunting
