

Supporting your District's AI Journey

Overview

The Learning Technology Center (LTC) can provide support in various aspects of your district's AI journey. Our AI Services Menu is meant to offer districts a comprehensive range of options to meet their unique needs and vision. Whether you are looking for guidance behind the scenes in regards to governance, establishing a vision and roadmap for AI in your district, and determining district readiness, or if you're looking for support with stakeholder-facing communication and training, the LTC is here to help.

Behind the Scenes

Governance, vision and roadmap development, and readiness assessment for the leaders making AI decisions in your district.

Stakeholder-Facing

Communication and training support for educators, administrators, boards of education, and students.

WHAT'S INSIDE

01 Professional Learning & Presentations

03 Governance & Readiness

05 AI Leadership Bundles

02 Consulting & Strategy

04 Instructional & Programmatic

01 PROFESSIONAL LEARNING & PRESENTATIONS

AI Workshops / PD	Professional learning for educators and instructional staff, with a customized agenda aligned to grade band, role, or district priorities.	Onsite: \$600 half-day Onsite: \$1,200 full-day Virtual: \$200/hour
AI Administrator Academy	Leadership training for principals, district administrators, and instructional leaders responsible for AI-related decisions, resulting in documented next steps.	\$1,300
Board-Level AI Briefing	Executive-level session for boards of education. Focuses on oversight, risk, and strategic considerations — including SOPPA/FERPA context — rather than tools.	Onsite: \$600 half-day Onsite: \$1,200 full-day Virtual: \$200/hour

02 CONSULTING & STRATEGY

AI Consulting	Advisory and consulting services supporting districts at any stage of AI adoption — from early exploration to complex, multi-phase implementation.	\$150/hour
AI Advisory Retainer	Ongoing advisory support for district leadership as AI evolves — scheduled advisory sessions plus on-demand review of AI tools, policies, or communications.	\$750/review request & accompanying check-in

03 GOVERNANCE & READINESS

AI Readiness & Implementation Review	Comprehensive assessment of district readiness for responsible AI adoption — a clear, actionable snapshot of current capacity, gaps, and next steps.	\$2,750 comprehensive \$1,200 targeted review
AI Governance, Policy & Implementation Support	End-to-end support for establishing, adopting, and implementing district AI governance and policy, including instructional guardrails and limited pilots.	Quoted per scope Included in AI Leadership Bundles

04 INSTRUCTIONAL & PROGRAMMATIC

Instructional AI Use-Case Vetting	Expert review of proposed instructional AI tools prior to adoption — pedagogical alignment, instructional impact, and equity, accessibility, and responsible-use considerations.	No charge
Student AI Literacy Program Review	Review of existing digital citizenship or computer science programs for AI literacy alignment — readiness, gaps, and instructional coherence.	\$2,000

05 AI LEADERSHIP BUNDLES

AI Leadership Bundle

\$6,000

Comprehensive engagement to move districts from exploration to formal governance and planning.

- ✓ AI Readiness & Implementation Review
- ✓ AI Governance, Policy & Implementation Support
- ✓ AI Implementation Roadmap (12–36 months)
- ✓ AI Board-Level Briefing

AI Leadership Bundle Plus Training

\$8,400

Expanded engagement focused on implementation and sustainability.

- ✓ All deliverables from the AI Leadership Bundle
- ✓ Policy implementation training (2 full-day or 4 half-day)
- ✓ Rollout resources
